Grant Management

TRANSFORMING THE BUSINESS OF HEALTH

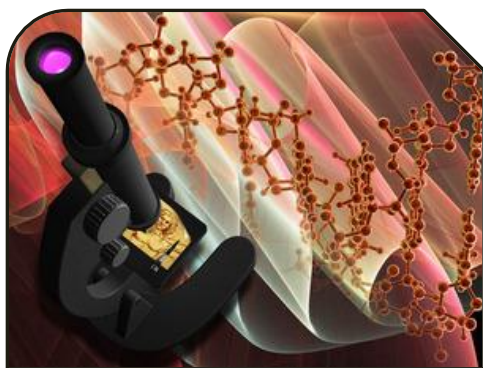

Helping procure and execute awards for your grant success

DCA offers customer-focused grant writing and grant management services that facilitate the acquisition and management of grants and ensures compliance with regulatory, accreditation and organizational requirements.

Our experienced team assists you in developing and implementing internal controls and procedures for effective grant management and monitoring to ensure compliance. Our consultants guide your mid-project and final reporting.

Grant Writing and Submission

- Identify potential grant sources;
- Establish activity lists, timelines, accountable teams for grant completion;
- Organize and integrate required proposal information and data;
- Review, edit and submit final grant application;
- Write scientific proposals with Principal Investigators;
- Write outreach and education proposals independently; and
- Track grant scoring and funding awards.

DCA's grant management services bring together internal and external grant writers, principal investigators, architects, facilities management, and administrative personnel and synthesizes a compelling, strong, and technically complete application consistent with grant specifications and deadlines.

DCA Supports Your Organization in:

Pre-Award

- Policy development
- Identification of grant opportunities
- Coordination of grant participants and role agreements
- Proposal preparation
- Project Budget preparation

Post Award

- Risk-based audit approach
- Identification of gaps in program controls
- Ensurance of financial compliance with federal regulations
- Training, credentialing, and technical support
- Accounting and IT support
- Performance evaluation
- Grant closeout
